

MATH 4 ANTIRACISM

T2TGlobal is introducing a new collaboration effort, Math 4 Antiracism. This platform will amplify the voices of compelling innovators in mathematics and related fields as they bring forward key issues and solutions connected to social justice. Your sponsorship drives out systemic inequities by preparing students with the critical thinking skills they need to seek justice for themselves and others. With your support, we can galvanize a movement for quality math education.

	Innovation (1) \$2,500	Equity (4) \$1,000	Social Impact \$500
